PERGOLAS

STANDARD WOOD PERGOLA

Cherokee

Cost effective | Scalloped end cuts | Traditional style

After spending a long day at work in a gray cubicle and fighting traffic all the way home, you find yourself longing for a place to retreat from it all. An earthy, natural place where you can re-focus on the important things in life.

Even if you don't have woods near your home, you can create a space to connect with nature in your own backyard by training woody vines to grow over a pergola. Our Cherokee Pergola is made with lovely natural wood, and when covered in climbing plants, it creates natural dappled sunlight that will make you feel like you're walking through a deep forest.

In this earthy, shaded area, gather with your family and re-connect. Reminisce on all the family stories and legends. Work stress can wait. Right now, it's time to focus on the things that matter most.

HEAVY TIMBER PERGOLA

Boulder

Stately contours | High class | Permanent feel

You step outside your door and breathe in the fresh morning air. The sun cuts through the chilly atmosphere and bathes your face with light and warmth. There may be more rocks than plants in your yard, but you've always preferred that sort of rugged, artistic beauty.

Clutching your pottery mug of coffee, you walk towards your Boulder Pergola. Its large and sturdy wooden beams criss-cross above your head, creating a rustic work of art. Your boots crunch on the gravel, and you settle on a weathered bench. Looking up through the slats, you see an osprey fly by, silhouetted against the cold blue of the sky.

You sip your coffee and sigh rapturously. Nothing compares to the beauty of these early mornings.

STANDARD VINYL PERGOLA

Carolina

Clean Lines | Cost Effective | Traditional/Modern Merge

It's a sunny afternoon after church, and you're putting the finishing touches on the peach cobbler you made for Sunday dinner. The delicious aroma of pot roast is wafting out your open window, and as your guests arrive, their stomachs start to rumble.

With your cobbler in one hand and a pitcher of sweet tea in the other, you make your way out to the tables set up under your Carolina Pergola. It sits in your yard, lovely and white and covered with flowers. With plenty of space to accommodate your guests and your mountains of food, your pergola represents everything you love about the south.

Bellies are filled. Stories are told. Your pergola rings with laughter. The sun lowers in the horizon, but what's the hurry? Have another glass of sweet tea and stay awhile longer.
