# Warranty

## **15-YEARS RESIDENTIAL, 5-YEARS COMMERCIAL**

We warrant our products for 15-years residential or 5-years commercial.

If you have a warranty claim, take your product to the dealer to file a warranty claim. We will repair or replace any defective products.

Poly is a synthetic product that may scratch or change color slightly when exposed to weather. There may also be some expansion and contraction due to temperature change. This is not covered by the warranty.

Our furniture is constructed with Type 316 (Marine-Grade) stainless steel fasteners. However, in extreme conditions, or coastal areas, these still may require occasional cleaning to keep it free from rust stains.

Swivel furniture is warranted for 5-years residential and 3-years commercial use.

# Product Care

Our furniture is made from recycled plastic that never needs to be painted or stained, and will not rot or splinter. It is color stable with a UV protective agent that keeps fading to a minimum.

## **GENERAL CLEANING**

Furniture can be cleaned with a soap and water solution using a plastic bristled brush or soft sponge.

## **DEEP CLEANING**

A pressure washer can be used to clean your furniture but it is recommended that it does not exceed 1500 psi.

Keep the pressure washer tip at least 10-12" from the furniture to prevent damaging the lumber.

## **SURFACE CARE**

Do not use knives or other sharp objects on your furniture.

To avoid melting, do not place hot items directly on your furniture. Flower pot residue should be removed regularly to prevent staining.

## **FASTENERS**

Our furniture is built with stainless steel fasteners. While stainless steel will not rust in most outdoor conditions, if it is exposed to saltwater it will need to be cleaned occasionally to maintain a rust-free surface.

# Benefits of HDPE Lumber

- Low Maintenance
- Resists mildew, moisture, insects, and chemicals
- Does not require staining or painting
- Comes in a wide range of colors to meet your needs
- Durable, long-lasting, and weather resistant
- Cleans up easily with soap and water
- Will not rot, rust or splinter
- Environmentally Friendly - built with plastic lumber made from high-density polyethylene that would normally be disposed in our landfills.

## Quality Craftsmanship

Our furniture is built to endure heavy use and harsh weather (and can be left outside all year long).

The furniture is built with high-quality stainless steel fasteners and aluminum reinforcement where necessary.

Built with minimal exposed hardware.

Visible screws

Hidden screws

**BUILT STURDY**  
*Our tables are supported by strong aluminum frames!*
